

# THE FLIPPED CLASSROOM APPROACH

WAYS TO FLIP YOUR TEACHING IN THE MUSICAL CLASSROOM WITH TECHNOLOGY

MARVIN GARDUNO

ThatFlippingOrchestraDirector.com

## WHAT IS IT?

Instruction that happens away from the classroom in the form of videos, podcast, or online activities allowing students to demonstrate and review content knowledge when they return your classroom.

## WHY SHOULD I DO IT?

- Different instruction that places emphasis on student achievement.
- Lessons available online for review, allowing students to revisit if needed.
- You can be your own co-teacher! Introduce lesson at home and review in class.
- Introduce new resources providing students with tools to explore music in the 21st century.

## APPS TO USE

### PODCAST

Create an assignment based around an episode of a podcast and have students complete it away from the classroom!

### CANVA

Create professional looking graphics! Great for assignments or information!

### REMIND 101

Send links to videos or PDF's! A new way to communicate with your students!

### NEARPOD

Use for interactive presentations! Code allows students to access on any device anywhere!

### SOCIAL MEDIA

Students are on social media! Create a group account and use it to push notifications or assignments to them!

### EXPLAIN EVERYTHING

Create immersive lessons on a digital white board! Screen record instruction and make the video available to your students!

## WHERE TO UPLOAD

### YOUR OWN WEBSITE!

Create your own FREE website to upload your content!

Make it available to your students!

Check out: Wix, Weebly, and Google Sites!

### ONLINE "CLASSROOMS"

Explore options like Google Classroom and SeeSaw as online "classrooms" to upload your material for students to access! Check your schools firewall settings to ensure this is a possibility!

### YOUTUBE!

Establish an online presence for your students and upload your content for them to watch! They're on youtube anyways, might as well learn a new skill!

## THINGS TO REMEMBER

- Be patient! Trying something new takes time so enjoy the process!
- Ask for help! Often times, students know how to work around the kinks! You'd be surprised in what they know!
- Be consistent! Find one app you really like and use it again and again! The more you use it, the better it will be!
